Start with a three generation sire stack of the greatest marbling bulls to ever leave Japan, 068, Michifuku and Itoshigenami. Add in a powerful dam by Itoshigefuji (TF147) for growth and frame and top the pedigree off with a son of the breed leading maternal traits sire, Itomoritaka (002). Macho is a grandson of Misami whose marbling MVP was 1.01 and a great-grand son of Misako whose marbling MVP was 1.03. The exciting result is a tested recessive clean young super sire with a AA-10 score for SCD and tenderness and the preferred GH gene haplotype CC. www.baywagyu.com for family photos.
