

Jet Black Chex

Reg.: I-268950
Brand: 794
DOB: 9/26/2007
Color: Black
Weight: 1590
(on 10/18/2018)
Horns: 82.38
(on 10/12/2018)

Jet Black Chex is a very different Rio Grande son, and blacker than a skunk's arm pit. He is 78.75 inches T2T, a straight trim profile, pretty head and nice lateral sweeping horn shape. For those who like black and need an out cross to Over Kill or Over Head, here he is. He is believed to be the widest horned all black bull in the industry. Use him to reduce white, darken dish water colors and for correct show conformation. DCCI has been hunting a different style of Rio Grande and he is the final sought-out one.
